

We guarantee no leaking for 1 full year from purchase.

Brass construction extends life, reduces potential issues.

All fillers 100% leak tested @ our Cleveland, Ohio facility.

Fillers can be customized for faster filling.

EVERGREEN MIDWEST offers a complete line of balloon fillers & accessories.

All models are available with contents gauge, disc tie post, handwheel-type connection, economy hand wheel, or ribbon/ string cutter. All mylar balloon inflators stop filling automatically when balloon is full.

E99	Economy in-line handtight filler
E102	Standard latex balloon filler
E102G	Latex filler + contents gauge
E102HT	Latex filler + handwheel-type connection
E102HTG	Latex filler + handwheel-type connection + contents gauge
E103HTG	Economy mylar balloon inflater. Auto shutoff when mylar balloon is full saves costs that result from over-inflation. Includes hand-tight connection and cylinder contents gauge.
E2000HTG	Mixes 60% helium and 40% air. Perfect cost-saving solution for events. Includes hand- tight connection and cylinder contents gauge.
E2802HTG-DV	Ergonomic design allows for single hand inflation. Push design for mylar inflation is preferred by industry professionals. Auto shutoff saves costs that result from over-inflation. Includes hand-tight connection and cylinder contents gauge.
