

G540 Industrial Oxygen Series

FasTest's G540 gas connectors are simple to use, with a “no twist, no turn” approach to filling. Simply connect to your CGA 540 valve and lock into place with a forward movement of the bail handle roller actuator. You're now ready to fill the industrial oxygen cylinder in seconds.

- Available in stainless steel or monel
- Cleaned for oxygen service
- Heavy duty handle eliminates common failures
- Simplified design has fewer seals to maintain
- One-piece exterior body construction
- Variety of bail handle configurations

Product Family	Connection Type	Connection Method	Application
G-Series	External Threads	Bail Handle	Industrial Oxygen
Connects To	Pressure Rating (psi)	Termination	Weight
CGA 540	3600	1/4" NPT (Male)	40 oz.

Part Number	Handle	Housing	Seals	Replacement Seals
G540-0411-BH	1	Stainless Steel & Brass	Viton	SG540
G540-0412-BH	2			
G540-0414-BH	4			
G540-0415-BH	5			
G540-0411-BHM	1	Monel / Inconel & Brass	Viton	SG540
G540-0412-BHM	2			
G540-0414-BHM	4			
G540-0415-BHM	5			

For EPDM seals add "E" to the end of part number.
