

High Pressure Line Valves

Panel Mount & Line Applications

- Durable chrome-plated brass body resists corrosion.
- Compact design especially suited for use on compressor panels and cascade systems.
- Very low torque operation under all pressures.
- Dependable packed seal design using common valve parts readily available.
- Wide variety of application: panel mount, line valve, line valve with bleed for filling pigtails.
- Easy to read markings: Open/Close, 6000 PSI, line direction arrows.
- 100% Factory tested with nitrogen at full working pressure.

PART NUMBER	DESCRIPTION	INLET	OUTLET
HLV-1	Line valve	1/4" FNPT	1/4" MNPT
HLV-2	Line valve + panel feature	1/4" FNPT	1/4" MNPT
HLV-3	Line valve + bleed feature	1/4" FNPT	1/4" FNPT
