

High Pressure Line Valves

Panel Mount & Line Applications

Durable chrome plated brass body resists corrosion.

Compact design especially suited for use on compressor panels and cascade systems.

Very low torque operation under all pressures.

Dependable packed seal design using common valve parts readily available.

Wide variety of application: panel mount, line valve, or line valve with bleed for filling pigtails.

Easy to read markings: Open/Close, 6000 PSI, line direction arrows.

100% Factory tested with nitrogen at full working pressure.

PART NUMBER	DESCRIPTION	INLET	OUTLET
HLV-1	Line valve	¼" FNPT	¼" MNPT
H LV-2	Line valve with panel feature	¼" FNPT	¼" MNPT
HLV-3	Line valve with bleed feature	¼" FNPT	¼" FNPT
