

Product Description

LOX-8 Plumber's Putty is a chemical-resistant putty engineered for caustic chemicals, acids, and alkaline use. It is a mineralized inorganic chemistry for waterproof seals between two rigid surfaces, providing superior performance. LOX-8 Plumber's Putty is VOC-free and silicone-free.

Features

- Chemically inert
- Anti-corrosive
- Silicone-free
- Non-toxic, solvent-free, non-hazardous, odorless, non-flammable, VOC-free

Benefits

- Provides waterproof seal to prevent leaks
- Non-migrating
- Non-hardening, will not crack or crumble
- No cure/dry time
- Formulated for wet and dry conditions

Applications

- | | | |
|---|--|---|
| <ul style="list-style-type: none"> ▪ Orion, Watts, and other lab sinks and drains ▪ Chemical waste floor drains and cleanouts | <ul style="list-style-type: none"> ▪ Gasoline, diesel, kerosene fuel systems ▪ Chlorine and powerful oxidizers | <ul style="list-style-type: none"> ▪ Water and wastewater processing ▪ Ammonia and freon refrigeration service ▪ Chemical processing |
|---|--|---|

Health and Safety

LOX-8 Plumber's Putty is a very safe, solvent-free product. Not classified as hazardous according to OSHA 29 CFR 1910.1200 and WHMIS. Not hazardous under the consumer product safety regulations. See the Safety Data Sheet for additional information.

Storage, Shipping and Handling

Always keep the unused product in the original container, tightly closed. Store in a cool, dry ventilated area. Avoid freezing and excessive heat during storage and shipping. DOT-classified as non-hazardous, can be shipped by air with no shipping restrictions. See Safety Data Sheet for additional information.

Specifications and Approvals

- Meets Federal Specification TT-P1536A & TT-P-1536A Type I

Test	Rating
Appearance	Putty/Light green
Texture	Thick, smooth, free of lumps
Flammability	Non-flammable
VOC Content	0%
Color/Odor	Green/Odorless

Test	Rating
Dropping Point	None
Flash Point	None
Density	2 g/ml
Service Temperature Range	-240°C (-400°F) to +287°C (+550°F)

How to Apply

- Clean and dry areas on traps, sinks, and drains.
- Warm putty in your hands, roll into rope-like strands about 1/2" thick.
- Form a complete circle around the underside of the flange.
- Press into place while applying enough pressure so excess putty oozes out.
- If there is any putty around the flange, wipe it with a damp cloth.

Packaging

Part No.	Size	Container	Case Quantity
9722167	56 g (Net Wt. 2 oz)	Jar	12
9722168	453 g (Net Wt. 16 oz)	Jar	6

LOX-8® PLUMBER'S PUTTY IS COMPATIBLE WITH THESE AND OTHER SIMILAR AGGRESSIVE CHEMICALS:

Aluminum Chloride
 Ammonia
 Ammonium Hydroxide
 Ammonium Nitrate
 Ammonium Perchlorate
 Anhydrous Ammonia
 Antimony Trichloride
 Bicarbonate Acid
 Bromine
 Calcium Hypochlorite
 Chlorine
 Chlorosilanes
 Chlorosulfonic Acid
 Chromic Acid
 Chromyl Nitrate
 Diesel Fuel

Fuming Nitric Oxide
 Gasoline
 Hydrochloric Acid
 Hydrogen Bromide
 Hydrogen Fluoride
 Hydrogen Peroxide
 Hydroiodic Acid
 Hydrofluorosilicic Acid
 Hypochlorite Solutions
 Iodine
 Kerosene
 Muriatic Acid
 Nitric Acid
 Oleum
 Peracetic Acid
 Phosphoric Acid

Potassium Persulfate
 Propylene Oxide
 Silane
 Silicone Tetrachloride
 Sodium Hydroxide
 Sodium Hypochlorite
 Sodium Perchlorate
 Sodium Peroxide
 Sulfur Dioxide
 Sulfur Trioxide
 Sulfuric Acid
 Thionyl Chloride
 Titanium Tetrachloride
 Uranium Hexafluoride
 Zinc Orthophosphate

LOX-8® PLUMBER'S PUTTY IS COMPATIBLE WITH THE FOLLOWING MATERIALS:

All plastics
Cured epoxies
EPDM
Ethylene propylene rubber
Fluoro-silicones
Glass – ceramics

Neoprene
Polycarbonates
Polyamides
Polypropylene
Polyvinyl Alcohol

Polyethylene
Rigid PVC/CPVC
Stainless Steel
Urethanes
Viton™ formulated plastic
