☘ EVERGREEN MIDWEST

- Flow by color gauge guards - easily identifies regulator as high flow (green) or pediatric (orange) at a glance
- Ergonomic handle
- Lightweight aluminum body with brass core
- Hugs the cylinder to reduce accidental damage
- High visibility 1.5" diameter gauge
- Bar coded regulator body and box
- Engineered with a metered flow orifice
  - *Allows for a precise oxygen delivery which is critical for pediatric and geriatric patients. Metered flow ranges are produced by using a calibration technique to dial in each flow setting, allowing for a more precise oxygen delivery*
- Meets or exceeds FDA, CGA & ASTM standards
- Designed for use up to 3000 PSI
- 2 year warranty
